

PATENT
09/843,059

B. AMENDMENTS TO THE SPECIFICATION

Please amend the paragraph beginning at page 7, line 21-25, with the following paragraph:

A1
Another solution is provided in copending patent application Serial Number
(AUS919990895US1) 09/561,181 filed April 27, 2000, titled "METHOD, SYSTEM,
AND PROGRAM FOR SAVING OBJECT CONTENT IN A REPOSITORY FILE" and
commonly assigned to IBM Corporation in which a displayed advertisement object can be
selected by a user and appended to a repository file of similarly selected objects.

Please amend the paragraph beginning at page 7, line 16-29, with the following paragraph:

A2
Another embodiment of the invention is described in a copending patent
application having Serial Number (Internal Docket Number AUS920010005US1)
09/843,063 and filed on even date herewith and commonly assigned, and which is
incorporated herein by reference. Instead of saving the multimedia objects, only screen
captures of the various multimedia objects are saved at configurable time intervals. The
screen captures contain the necessary links to access the advertiser. Upon a playback the
user will only see the stored screen captures. The user will not see the actual replaying of
the multimedia object. Nevertheless, the user will have various identifiable snapshots of
the advertisements and access to the necessary links to get back to a desired advertiser.
